

**BUSIEST LADDER COMPANY
MIAMI-DADE FIRE-RESCUE A2**

**IF YOU NEED A RELIABLE FIELD
PROVEN AERIAL CHOOSE
ROSENBAUER!**

VIPER gets the job done!

Miami-Dade Aerial 2, built by Rosenbauer, was listed as the busiest ladder company in the country by FIREHOUSE Magazine.

Miami-Dade Fire Rescue (MDFR) was ranked the fourth largest fire department in North America, with 2,582 personnel, according to the 2010 National Run Survey published in the June, July and August 2011 issues of Firehouse Magazine. MDFR's Aerial 2, stationed in Liberty City, holds the distinction of taking the lead as the busiest aerial-ladder-truck in North America for the second consecutive year. This ranking is a result of responding to 5,277 calls last year, 781 responses more than the second place aerial from Washington, DC and 800 calls more than the third-ranked aerial in New York City. Aerial 2 was also listed as the 40th busiest non-transport unit, responding to 2,613 calls.

Firehouse Magazine, a leading publication in the fire-rescue industry, has compiled data for the past 30 years based on information provided by departments in the US and Canada. Nearly 240 career fire departments participated in the published 2010 run survey.
