## 4" WATERWAY SWIVEL

DESCRIPTION: 4" Waterway Swivel

PLANT: Rosenbauer

SPECIFICATION: There shall be a 4" waterway swivel with 360 degrees continuous rotation. It shall be installed through the turntable and torque box to connect the aerial waterway plumbing from the water pump to the aerial. The hydraulic oil for the aerial shall be directed through a three-port hydraulic swivel with 360 degrees continuous rotation.

The swivel will be a modular three component swivel. It will have a separate electrical swivel, hydraulic swivel and waterway swivel that, when connected, form one component. Therefore, if the waterway swivel or another component were damaged, the aerial electrical swivel and hydraulic swivel will still be able to run properly and the waterway swivel shall be the only swivel to be replaced.
