## ROSENBAUER PRODUCT AWARENESS BULLETIN

**DESCRIPTION:** Aerial Torque Box Slide-Out Hose & Ladder Storage  
**PLANT:** Central/General  
**SPECIFICATION:** The hose shall be stored on a roll-out tray in the torque box. The Slidemaster pull-out tray assembly will be finished with heavy duty aluminum trays and hose bed grill and be supplied with one adjustable divider. The tray shall pull-out and extend to 80% of the torque box length. Hose Bed Capacity: 700 feet of 5" LDH and 600 feet of 3" DJ hose.

Ground ladders and pike poles shall be accessed from the rear of the apparatus. All ladders shall be mounted with individual brackets and slide on composite material to protect the main beams of the ladders from damage. Pike poles and the folding ladder shall be stored in an individual storage area. Stops shall be provided in forward portion of the storage area to prevent ladders from sliding during emergency braking conditions.
