PRODUCT AWARENESS BULLETIN FROM ROSENBAUER

SPECIFICATION: This roll-out tray is installed in the crosslay hosebed area. Framework for the assembly is made of steel-angle and the tray is constructed of 1/8" aluminum with sealed roller bearings and Teflon slides formed to fit the contour of the speedlay assembly. Slide-out tray can be fully extended to either side of the vehicle and includes latches to lock in stored and open positions. Hand-holds will be provided on both sides of the tray for easy loading and unloading.

The tray holds the specified hose as provided by the fire department and includes a chicksan swivel positioned over the tray area. Hose bed openings will be equipped with hose and nozzle securement devices to comply with applicable NFPA Standards.
