SPOTLIGHTING FEATURE

BACKBOARD STORAGE

DESCRIPTION: Backboard Storage

PLANT: Rosenbauer

SPECIFICATION: A compartment large enough to accommodate two backboards shall be supplied and installed on the rear exterior wall of the chassis cab. The compartment shall be equipped with a strap on each side of the compartment.

NOTE: This storage will not work on all top controls because of the clearance needed for personnel. It works best when there is a crosslay below it or when the walkway is much larger than normal.
