SPOTLIGHTING FEATURE

2 1/2" FAN PATTERN GROUND SPRAY DISCHARGE

DESCRIPTION: 2 1/2" Fan Pattern Ground Spray Discharge

PLANT: Rosenbauer

SPECIFICATION: One ground spray discharge shall be furnished on the apparatus. The ground spray nozzle discharge shall be supplied with a two and one half (2-1/2") inch flexible hose with stainless steel fittings or stainless pipe as required and a 2-1/2" discharge valve. The discharge valve shall be controlled with an electrically operated valve with individual switch control in chassis cab with an individual identification label. There shall be a 3/4" drain control furnished in the supply line. The nozzle is to be McLellan Brand, model BC2710 with 0.25" x 5" opening to provide a fan style water pattern.
