FLOOR DRY COMPARTMENT

DESCRIPTION: Floor Dry Compartment in Wheel Well

PLANT: Rosenbauer

SPECIFICATION: One storage compartment designed for floor dry type material shall be supplied and mounted in the rear wheel area of the apparatus body. The compartment is to be constructed of .125" smooth aluminum with a D/A sanded finish. The exterior face is to be stainless steel with a D-ring style, single point latch. The compartment is to be a slide-out design utilizing two roller bearing style slides that allow for 100% extension. There shall be a hinged access/fill door along with a poly slide/gate valve on the bottom face. The storage compartment shall provide a minimum of two cubic feet of storage volume.
