PRODUCT AWARENESS BULLETIN FROM ROSENBAUER

DESCRIPTION: Access Ladder for Aerials

SPECIFICATION: There shall be a ladder installed on the right side of apparatus for accessing the aerial turntable. It shall be of all aluminum design and incorporate treads six inches deep and with no more than 18" inch rise. The ground to first step measurement, on level ground, shall be no more than 18" inches. Ladder shall have a hinged lower portion to create an angle of approximately 75-degrees for safe climb and descent on the ladder. The ladder shall be retained in the stowed and deployed position by two (2) gas cylinders and shall not require the use of latches to hold in the stored position.
