PRODUCT AWARENESS BULLETIN FROM ROSENBAUER

DESCRIPTION: SAFE STEP

SPECIFICATION: To access equipment stored in the upper section of the compartments, heavy duty drop down door steps shall be provided at the bases of the high side equipment compartments ahead of and behind the rear wheels. The drop down door steps and the roll up doors of each compartment will operate independently of each other and shall have no exposed mechanical devices or hinges.

An aluminum NFPA compliant treadplate stepping surface shall be provided full width of the compartment and no less than 16" in depth. Each shall withstand a static load of 800 pounds. Two (2) gas filled spring loaded door openers shall assist in opening and closing. When closed, the doors are available in a mirrored stainless steel or a painted finish.
