## TURNTABLE OPTIONS

DESCRIPTION: Turntable Shape - Three Sided

PLANT: Rosenbauer

SPECIFICATION: The turntable shall be three sided (left, rear & right) with the corners cut to allow for personnel to enter and exit the turntable. The turntable walking area shall be covered with NFPA #1901 compliant skid resistant aluminum tread plate material, with a 2-1/2" lip. Three 42" high, slip resistant handrails capable of withstanding a 225 pound force applied from any direction shall be installed on the turntable.

DESCRIPTION: Turntable Shape - Two Sided

PLANT: Rosenbauer

SPECIFICATION: The turntable shall be two sided (left and rear) with the corners cut to allow for personnel to enter and exit the turntable. The turntable walking area shall be covered with NFPA #1901 compliant skid resistant aluminum tread plate material, with a 2-1/2" lip. Two 42" high, slip resistant handrails capable of withstanding a 225 pound force applied from any direction shall be installed on the turntable.
